

--	--	--

The SWC21B wood stove gives the user the peace of mind found with fully welded plate steel firebox while still having the impeccable styling of an enameled cast iron wood stove. This 1.5 cubic foot firebox, is fully capable of doing the job with the ability to achieve lower than average burn rates for overnight burns. The classic elements of this unit include elaborate curves and bonnets common to French design, along with fluted columns and crisp moldings.
